

## **Remember the first victims of Big Pharma:**

### **Honor the fallen children of Canadian death camps on April 15, 2022: The 17th annual Aboriginal Holocaust Memorial Day**

The world knows about the Canadian genocide of native children because of an event that was launched by survivors of that crime seventeen years ago today. The first Aboriginal Holocaust Memorial Day in Vancouver on April 15, 2005, sparked a national movement that eventually forced out the truth and deposed Pope Benedict and other guilty criminals.

More than 60,000 children were routinely murdered in Catholic, Anglican, and United Church "Indian residential schools" and hospitals between 1891 and 1996. Many of these innocents died from drug testing experiments run by Pfizer, GlaxoSmithKline, and other pharma companies tied to these churches. Their COVID drug is the product of the medical murder of aboriginal and other children, and so it is now banned under international law.

The COVID tyranny could not have happened without this earlier regime of terror against indigenous children across Canada. Now that the churches and drug companies responsible for this massacre have been lawfully convicted of genocide by an international court, we are all obligated to help shut down these criminals and their corporations.

On Friday, April 15, 2022, remember the fallen innocents and pledge yourselves to fight for those who continue to be killed. Rally at your local Catholic, Anglican, and United churches and Big Pharma offices and enforce the arrest and confiscation orders against these killers.

For more information and to access these orders, see [www.murderbydecree.com](http://www.murderbydecree.com) under "ITCCS Updates", January 15 postings. Hand out the attached leaflet at your actions.

**Honor the dead by stopping their killers and the ongoing slaughter of the innocent!**
